Brad Bondi spoke at the ABA National Institute on Bitcoin and other Virtual Currencies: Emerging Issues in Regulation and Enforcement held June 26, 2015 at the Ritz-Carlton in Washington, DC. The program analyzed the latest events in regulatory compliance and law enforcement efforts directed at digital currency. The panel explored what regulators and law enforcement officials have been focused on, and the different types of enforcement mechanisms employed on both the state and federal levels. For more information on the program, please see the event details below.
