On Monday, March 12, 2018, Lauren Rackow moderated "The Meaning of HSR Clearance" panel presented by the New York State Bar Association Antitrust Section Mergers Committee and KLDISCOVERY. The panel discussed two recent merger cases: the DOJ's suit against (and eventual settlement with) Parker-Hannifin/Clarcor and the FTC's suit against Tronox/Cristal, including the potential competitive theories of harm, and key takeaways for counseling clients. The program also discussed the implications of HSR clearance and compared that with antitrust approvals in non-U.S. jurisdictions, particularly the European Commission.
