
Cahill Presents “Carbon Capture & Storage” on March 12

Tuesday, March 12, 2024 4:00 PM to Thursday, January 1, 1970 12:00 AM

On Tuesday, March 12, Cahill will present the next segment of our Infrastructure Webinar Series which will focus on carbon capture and storage (CCS).

Cahill partner Peter Rooney will be joined by Jeff Lee, Commercial Director, Carbon Management at Battelle, to discuss how CCS projects are successfully procured, financed and developed, as well as any progressive and/or innovative trends emerging in respect of this asset class. The conversation will also cover the technology behind these projects as well as the policy, economic, and technical challenges involved, among other considerations.
