
Gary Kalbaugh, Lewis Rinaudo Cohen, and Frank Weigand to Present IIB Webinar on Lending and Hedging in the AI Buildout

Thursday, October 29, 2026 4:00 AM to Monday, October 19, 2026 6:05 PM

Cahill partner Gary Kalbaugh, along with partner and co-chair of CahillNXT Lewis Rinaudo Cohen, and partner Frank Weigand will present the “Lending and Hedging in the AI Buildout” webinar with the Institute of International Bankers (IIB).

Gary, Lewis, and Frank will discuss how artificial intelligence is driving extraordinary demand for computational capacity and creating new financing, trading, and hedging opportunities for international banks. The webinar will define what compute markets are and explain how they are reshaping data center finance, including how futures and swaps can help address revenue uncertainty for lenders. The panelists will also examine how these developments present cross-selling opportunities, potential new revenue streams, and ways for international banks to deepen client relationships across lending and trading businesses.

The webinar is designed for IIB’s membership of internationally headquartered institutions. This program has been accredited with New York CLE credit in Professional Practice.
