
Cahill Represents Arrangers in \$1.56 Billion of Financing for The Weather Channel

Date: 02/15/13

Cahill represented Deutsche Bank and the other lead arrangers in connection with \$1.56 billion of new financing for The Weather Channel, one of the most widely-distributed and leading brands of weather-related information, and a portfolio company of Bain, Blackstone and NBC Universal. The Weather Channel operates across the web, television and radio to dispense real time weather information. The amended and restated credit agreement replaced the previously existing term loan with a new lower priced term loan.
