Date: 10/24/14

The 2015 edition of the *IFLR1000 - The Guide to the World's Leading Financial Law Firms* has ranked Cahill Gordon & Reindel LLP as a leading law firm nationally in bank lending and debt and equity capital markets, including the only Tier 1 ranking in high yield debt for the fifth consecutive year. Eleven Cahill partners have also been ranked as leading lawyers in the new edition.

Ranked as the sole firm in Tier 1 nationally in the high yield debt table, *IFLR1000* reported “For yet another year, Cahill maintains its largely undisputed position as the leader of high-yield debt transactions. Its depth of experience and expertise in this area are virtually unrivalled,” and cited clients commenting “They’re sharper than anybody else on the state of the market. The quality of the lawyers, the depth of the bench is impressive. They’re very commercial, and helpful about figuring out commercial solutions. They’re able to face off against the most challenging and sophisticated of my clients.”

The guide also reported, “The firm perfectly grasps the intersection of capital markets and acquisition finance...Outside the high-yield context, the firm has ridden high on the wave of equity capital markets propelled by robust IPO activity in recent months,” and cited clients commenting “They’re probably one of the most responsive firms on the street. They have some great partners, and they are a great resource to have working with you.”

Now in its 25th annual edition, the *IFLR1000* recommends only the best law firms advising on corporate finance in more than 120 countries. The results of the research are based on extensive and rigorous independent research that includes data relating to firms, interviews, client and competitor feedback and market analysis from the past twelve months.
