**Nola Heller of Cahill Gordon & Reindel named to Benchmark Top 250 Women in Litigation.**

Benchmark Litigation has recognized Nola Heller as one of the Top 250 Women in Litigation in its annual publication. Heller is a New York-based litigator with Cahill Gordon & Reindel.

The Top 250 Women in Litigation publication's extensive research process, which encompasses six months of investigation into the individual litigators' professional activities as well as client feedback surveys and individual interviews, has culminated in the selection of the most distinguished women in the world of litigation. These women have earned their place amongst the leading female litigators by participating in some of the most impactful litigation matters in recent history as well as by earning the hard-won respect of their peers and clients. Though they hail from widely different practice areas, they all share the distinction of being recognized as top players in their respective fields.

Listed within the Northeast section of the *Top 250 Women in Litigation* publication, Benchmark Litigation had this to say about Heller:

Cahill Gordon & Reindel's Nola Heller is active representing boards, committees, directors, global financial institutions, and multinational companies in regulatory and criminal investigations. Her vast experience in the public sector as an Assistant United States Attorney for the Southern District of New York, Chief of the Violent and Organized Crime Unit, and prior to that Chief of the General Crimes Unit has contributed to her both-sides-of-the-spectrum courtroom expertise.

Attorneys named to the 2019 publication were chosen through several phases of research: namely, the review of their recent case work, peer review in which we consider how attorneys at peer legal institutions might rank them, and a consideration of client feedback on their performances.

In addition to this honor, Cahill Gordon & Reindel also enjoys a number of firm-wide rankings and further individual attorney recognition by Benchmark Litigation. For more information please see here:
