
Cahill Named Finalist for Most Impressive Global Investigations Practice of the Year at 2026 GIR Awards

Date: 09/24/26

Cahill has been shortlisted for Most Impressive Global Investigations Practice of the Year at the 2026 *Global Investigations Review* (GIR) Awards, recognizing the firm's work across complex, high-stakes investigations and enforcement matters.

The recognition reflects the work of lawyers across Cahill's Congressional Investigations, White Collar Crime, Corporate Governance and FCPA practices, who advise companies and individuals on significant government and regulatory investigations, enforcement matters, and related litigation.

The *GIR* Awards recognize outstanding investigations work from firms and practitioners around the world. According to *GIR*, this year's nominees demonstrate "excellent lawyering in many forms," including trial work, negotiation, litigation, and the pursuit of novel cases. Winners will be announced at the annual awards dinner on November 19, 2026, in Washington, D.C., which will support the Swawou Layout Community Primary School for Girls in Sierra Leone.
