

CARES Act Provides Vital Resources for Telehealth to Combat COVID-19

Date: 03/30/20

On March 27, 2020, President Trump signed the Coronavirus Aid, Relief, and Economic Security Act (“the CARES Act”) into law. In addition to providing direct payments to Americans, buttressing unemployment benefits, and facilitating aid to struggling corporations and small businesses, the legislation makes numerous enhancements to telehealth – a critical resource to combat the COVID-19 pandemic.
