
SEC Proposes Broad Clawback Rules for Executive Compensation

Date: 07/10/15

On July 1, 2015, a divided Securities and Exchange Commission (the “SEC”) proposed rules to implement the clawback provisions of Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act. The proposal, if adopted, would require public companies to implement policies to broadly recover incentive-based compensation paid to current or former executive officers based on materially misstated financial statements. For this purpose, incentive-based compensation is defined as compensation that is granted, earned, or vested based wholly or in part on attainment of a financial reporting measure, including stock price and total shareholder return.
